Introduction

This document describes the Charge DeFi, a part of the Charge Ventures ecosystem.

Please **read the Disclaimer before investing**. All content in this document is to be considered informational in nature and is in no way to be construed as financial advice.

Charge DeFi Summary

Charge DeFi offers an array of tokens as an opportunity to invest in the project vision and to access existing and future products. The \$Static token is used as an access token to fuel features of Charge Ventures products - Bloomify and the Charge Wallet¹. It features a rebase mechanism below peg if a certain set of constraints are met. Rebase is a temporary guardrail to protect the ecosystem in its initial growth phase.

Charge DeFi is a combination of tokens and token liquidity pairs currently across two networks. Charge DeFi is available on Binance Smart Chain (BSC) and Fantom Opera Network (Fantom). BSC tokens consist of a utility token (\$Charge), an elastic-supply token that can rebase under peg (\$Static), liquidity pairs \$Static-\$BUSD and \$Charge-\$BUSD and a Membership receipt token (xStatic). Fantom tokens consist of a utility token (\$Charge), an elastic-supply token with a built-in rebase mechanism (\$Static), liquidity pairs \$Static-\$USDC and \$Charge-\$USDC. When the \$Static price is at or above \$1.01 TWAP, the ecosystem expands, and mints more \$Static tokens into circulation. More detailed information on reward tokens and TWAP as it pertains to the Boardroom, Farms and Membership Pool will be covered in further sections.

Charge DeFi focuses on security first - every product, contract and vault are subjected to rigorous internal and third-party auditing and is not released until fully cleared for use. The Charge team believes in complete transparency with investors.

Team

The Charge Team has decades of experience in tech, IT, telecom, and entrepreneurship along with a background in cryptocurrency; DeFi in particular.

¹Not the official name, only a placeholder

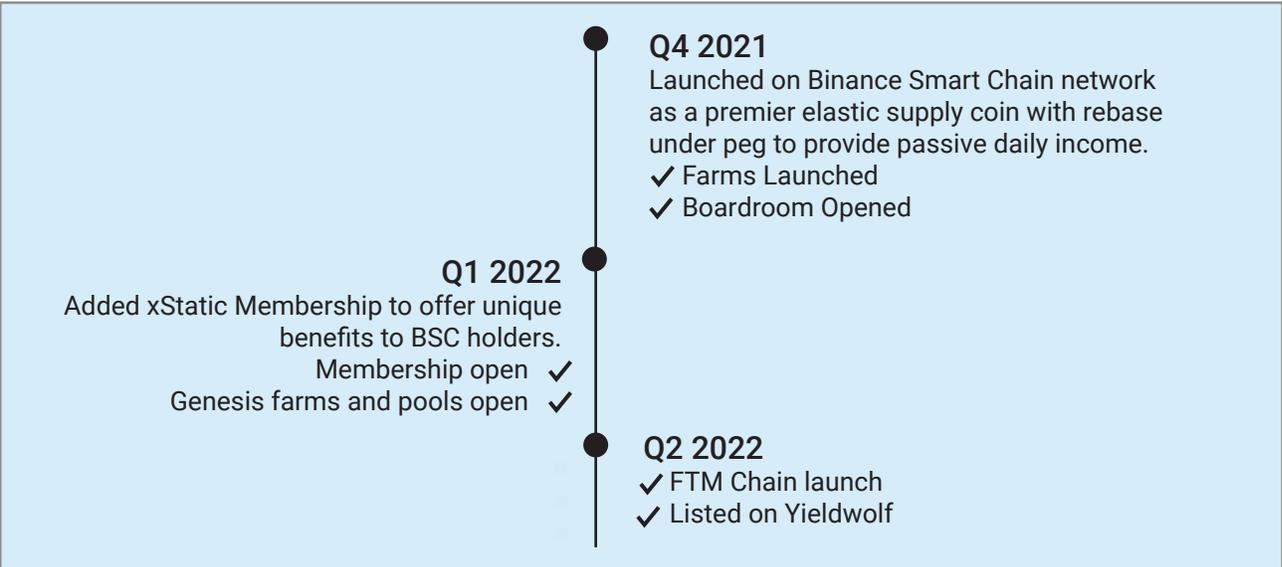

In addition to working together previously, some of the team members have also been an advisor, external consultant, or auditor for other projects. Charge was born from this cumulative learning of what works and what historically doesn't, along with the first-hand experience of what it takes to launch, build and grow a company. Charge is delivering real products, clear plans and has the experience to achieve them.

At this time the team consists of:			
1	Operations manager	7	Developers
1	Business developer	1	Product manager
12	Mods/Support	5	Marketeters
3	Designers		
	Additional support (legal counsel, external auditors, etc.)		

Company Formation

Charge became a legal entity headquartered in Dubai, UAE in March 2022. This step forward underscores the belief in our company vision and cements our position as a serious contender in the fintech space. Charge will continue to expand both internally as a business and externally with our development of products. By deciding to form a legal entity we are committed to upholding our values and standards which sets us apart from the more temporary crypto-centric projects.

Charge DeFi Roadmap

History

Charge DeFi initially launched on Binance Smart Chain in Q4 2021 and Fantom Opera Network on April 15th, 2021. Chain tokenomics are independent of each other which means the prices and rebases only are affected by and impact each chain. Any function that is chain-specific will be noted in the remainder of the documentation.

Binance Smart Chain (BSC)

Nov 19 2021 - Site launch, BSC pools open to earn \$Static

Nov 27 2021 - BSC Farming open for \$Charge

Dec 01 2021 - BSC Boardroom opened

Fantom Opera Network (FTM)

April 14 - Snapshot for airdrop, public site is available, can stake in farms

April 15 - Farms started at 3PM UTC

April 20 - Boardroom started at 8PM UTC

May 21 - Bridging for limited \$Charge opens

Tokens

Binance Smart Chain (BSC)

-  \$Charge - The Utility token in the Charge DeFi ecosystem
-  \$Static - An Elastic-Supply token, the main value asset
-  xStatic - A Receipt-of-Membership token
-  \$Static-BUSD LP - Liquidity pair token
-  \$Charge-BUSD LP - Liquidity pair token

Fantom Opera Network (Fantom)

-  \$Charge - The Utility token in the Charge DeFi ecosystem
-  \$Static - An Elastic-Supply token, the main value asset
-  \$Static-USDC LP - Liquidity pair token
-  \$Charge-USDC LP - Liquidity pair token

Configurable Ecosystem

The main differences between traditional elastic supply coins and the \$Static token, are the rebase mechanism below peg and the modular design of the contracts: most aspects of \$Charge, \$Static, xStatic and our Pools are configurable to ensure the platform is sustainable.

Epochs

An epoch is a moment in time that code executes in the contracts, approximately 8 hours per epoch, 3 per day. At that moment the following actions happen: Withdraw and Claim timers unlock, and \$Static and/or \$Charge rewards are disbursed in the Boardrooms; the Static-Charge Swap tools are refilled with 22.1 \$Charge; and Rebase is triggered if the conditions are met.

Rebase Mechanism

When looking at many former DeFi projects, we've seen sub-peg fees, taxes, bonding systems, token burn systems, etc. The implementation of these measures wasn't enough to push the price of the token back up to peg, and ultimately, these projects failed. To protect our ecosystem, we've implemented the Rebase mechanism.

The Rebase mechanism is built into the \$Static token contract and controls the circulating supply of \$Static to match the market demand, thus, raising the \$Static price. The Rebase mechanism only operates below peg, when the criteria is met to trigger a Rebase.

Rebase pushes \$Static back up towards, or over peg. Rebase % is based on how close \$Static TWAP* is to \$1.00 BUSD* at an epoch: Near peg = smaller rebase % and far from peg = bigger rebase %. The rebase mechanism is triggered at an epoch when either: the \$Static TWAP is at or below \$.80, or the TWAP has been at or below \$1.00 for 12 epochs. The \$ value remains the same before and after the rebase occurs but the quantity of \$Static reduces. Rebases can occur on both BSC and FTM chains but are independent of each other.

Important Note: Rebase affects **all** \$Static and \$Static LP tokens in circulation, including any tokens in wallets, farms, and pools. **The only**

*TWAP = time weighted average price

* \$BUSD on BSC and \$USDC on FTM

exceptions are unclaimed \$Static rewards in the Boardroom and \$Static staked in the xStatic Membership pool.

Example	
100,000 \$Static in circulation worth \$1.00 =	\$100,000
\$Static TWAP drops to \$0.92, 100,000 x \$0.92 =	\$92,000
The ecosystem rebases back to peg	
92,000 \$Static in circulation worth \$1.00 =	\$92,000
<i>*actual values will vary based on rebase % and market conditions</i>	

Boardroom and Expansions

When the price of \$Static is above \$1.01 the ecosystem will expand and mint more \$Static. Only by staking in the Boardroom, will investors receive part of this expansion in \$Static tokens. If the price of \$Static is below \$1.00 TWAP (peg), the expansion halts and the Boardroom stops minting new \$Static rewards until \$Static regains \$1.00 TWAP (peg) at an epoch. Rewards in \$Charge will always be minted. Boardrooms on different chains are independent of each other and rely on the \$Static TWAP for that chain.

Boardroom Lockups

The Boardrooms on all chains have a lockup period that is triggered by depositing, claiming, and withdrawing. Withdrawing funds auto-claims all rewards. Staked tokens will be locked up for 48 hours (6 epochs) after every deposit or claim. Any unclaimed rewards will be locked up for 24 hours (3 epochs). Boardroom lockup periods provide stability to the protocol by preventing any coordinated activities to dramatically move price.

\$Static-BUSD Compound Option

The Boardroom features a compound button the \$Static-BUSD pool. This action compounds your earnings back into the LP and resets the timer.

Over Peg (TWAP > \$1.01):	
Stake \$Charge	receive \$Static
Stake \$Static LP	receive \$Static and \$Charge
Under Peg (TWAP < \$1.01)	
Stake \$Charge	no rewards are issued in \$Static
Stake \$Static LP	receive \$Charge rewards only

\$Static Token

\$Static is an elastic supply token within the Charge DeFi ecosystem. \$Static is pegged to \$1.00 and has a built-in rebase mechanism. \$Static on BSC is pegged to BUSD, \$Static on FTM is pegged to USDC. Currently, depositing your \$Static into the xStatic Membership pool on BSC is the only way to protect your \$Static from Rebase. Please see the Rebase section for more details.

\$Static is the primary token for accessing Charge products. It will be required for Bloomify and the Charge Wallet¹. The main purpose of buying, holding and farming \$Static will to gain access to these products and any products developed in the future.

\$Static Tokenomics	
Rebase Criteria	
Number of epochs TWAP <= \$1.00*	12
TWAP Threshold Hit	\$0.80*
Expansion	
Expansion for each chain	When \$Static price > \$1.01*
Expansion Amount	$(TWAP - 1.01) * index * circulation$
Expansion Index	0.1
Expansion Distribution (BSC)	
\$Pulse Debt Repayment	5%
Project Wallet % (100% used for Operating/Marketing)	5%
Boardroom Rewards	90%
\$Charge Boardroom %	85%
\$Static-\$BUSD Boardroom	15%
BSC Expansion	100%
Expansion Distribution (Fantom)	
Project Wallet % (100% used for Operating/Marketing)	6.5%
Boardroom Rewards	93.5%
\$Charge Boardroom %	79.5%
\$Static-\$USDC Boardroom	14%
Fantom Expansion	100%
<i>TWAP = time weighted average price</i> * \$BUSD on BSC and \$USDC on FTM	

\$Charge Token

\$Charge is the main utility token of the Charge DeFi ecosystem and is exempt from the rebase mechanism. Staking \$Charge in the Boardroom rewards you with part of the \$Static expansion each epoch. The price of \$Charge depends on the market demand for \$Static on each chain. Limited \$Charge on BSC will be able to bridge to FTM.

\$Charge Tokenomics		
Max Cap		200,000
BSC		
\$Static LP Farm	29,000.00	Linearly every block over 3 months
\$Charge LP Farm	34,787.00	Linearly every block over 7.5 months
\$Static LP Boardroom	58,963.00	Linearly every epoch over 7 months
Smart \$Static Swap	12,246.00	Linearly every epoch over 6 months
Team	12,252.00	Linearly every block over 7.5 months
Reserve	12,252.00	A reserve for new products or features
Audit Bootstrap	500.00	One time initial fundraiser for audit
Total Allocation	160,000.00	
Fantom		
\$Static LP Farm	5,520.00	Linearly every second over 2 months
\$Charge LP Farm	15,462.50	Linearly every second over 4 months
\$Static LP Boardroom	8,992.50	Linearly every second over 4 months
Smart \$Static Swap	3,200.00	Linearly every second over 4 months
Team	3,200.00	Linearly every second over 4 months
Reserve	3,200.00	A reserve for new products or features
xStatic BSC Farm	425.00	Distributed for xStatic Membership
Total Allocation	40,000.00	
Bridge (BSC-Fantom)		
Deposits	160,000.00	5 \$Charge/epoch, doubling deposit amounts every 8 days
<i>*Bridge tokens not counted in total circulating supply and will be added to bridge by contracts where the liquidity tokens are permanently locked</i>		

xStatic Token

xStatic tokens are a receipt of your deposit into the BSC-only Membership pools. **Keep your Membership receipts in your wallet** to qualify for Membership benefits and to redeem your deposit after the unlock timer expires. Any addition to the xStatic Membership pool resets the 3-month lock timer. You can view your end block by clicking on the end block located on the Membership page. Rewards are always based on token quantity.

Your receipt tokens must be in your wallet to qualify for redemption and/or any associated benefits

xStatic Membership

Deposit 1 \$Static

- Receive 1 xStatic token
- Original \$Static is rebase-free

Deposit 1 \$Static-BUSD LP

- Receive 4 xStatic token
- Original \$Static-BUSD LP is subject to rebase

xStatic Membership Benefits

- Beta access to products
- Possible discounts on products
- Possible reduced fees on products
- Rebase-free \$Static
- Access to genesis farms
- Additional staking farms may be offered

LP Tokens

LP Tokens are providing liquidity to a project through adding even dollar value pairs of tokens. As the price of each token changes, the token quantity in your LP changes as well as your LP value. Please note that adding and withdrawing LP tokens is a two-step process. Selling or swapping your LP token may result in a substantial loss. Charge also encourages all LP investors to be very familiar with the concept of **Impermanent Loss** and understand how Rebase affects the \$Static in the LP.

Please Note

Do not sell or swap your LP tokens
You must withdraw and split LP tokens back to two tokens in order to sell

BSC

\$Static-BUSD LP Token

50% \$Static, 50% BUSD form this liquidity pair. Available from Pancakeswap (PCS) or the LP Zapper in Charge DeFi Tools on the website.

\$Charge-BUSD LP Token

50% \$Charge, 50% BUSD form this liquidity pair. Available from Pancakeswap (PCS) or the LP Zapper in Charge DeFi Tools on the website.

FTM

\$Static-USDC LP Token

50% \$Static, 50% USDC form this liquidity pair. Available from Spookyswap or the LP Zapper in Charge DeFi Tools on the website.

\$Charge-USDC LP Token

50% \$Charge, 50% USDC form this liquidity pair. Available from Spookyswap or the LP Zapper in Charge DeFi Tools on the website.

Pools and Farms

BSC

The BSC Farms page currently has \$Charge-BUSD LP which rewards you in \$Charge tokens and the rotating xStatic Farm which has recently allowed users to farm Static and Charge IOU tokens. To check when any farm is starting or ending users can click the Start or End Block listed on that farm. Beefy.finance also has a \$Charge-BUSD LP that will be running until 29 Sept 2022. Beefy pools auto-compound your LP tokens. Please note for any LP tokens you must create LP and add liquidity and when withdrawing, remove LP and split the LP back into two tokens.

FTM

The Fantom Charge DeFi Farms page launched with \$Static-\$USDC and \$Charge-\$USDC farms in April 2022. Additional farms may follow along with marketing pools to encourage investors from similar protocols to join Charge.

Where to Deposit LP tokens

Charge DeFi Boardroom or Charge DeFi Membership page
Charge DeFi Farms page, Beefy.finance or Yieldwolf

Charge DeFi Tools

Access our easy to use tools from the bottom right corner of the website when your wallet is connected. These apply to all chains.

Static - Charge Swap (smart swap) tool

Each epoch \$Charge is allocated to the Static - Charge Swap tool as part of the expansion. This limited supply is depleted quickly.

22.1 \$Charge on BSC per epoch

8.88 \$Charge on FTM per epoch

LP Zapper

The LP Zapper takes one token of your choice from the drop-down list, sells the required amount to pair into an LP. Please note you must create LP and stake. Likewise, to remove - withdraw and then break LP.

Charge DeFi Tracker

Use our Charge DeFi Tracker to explore your wallet, history, earnings and more. Select which items to include in tracking from Farms, Boardroom, Beefy, Wallet, Basic and Expansion/Debt. You can also view past rebases here.

Security and Audits

Security is a top priority, so we've implemented multiple security measures to ensure the safety of the investors and ecosystem. We strive to implement the best security measures and practices available for protection.

External audit

Before our initial launch, an external audit was completed by Certik. We continue to use Certik or a comparably reputable auditing company to confirm our code is safe, and we audit each new feature before it is added to the ecosystem.

Security Measures

- Fully automated testing of contracts using code analysis tools
- Timelocks to prevent contract changes
- Automated testing during deployment (tokenomics / behavior)
- Regular external audits by experienced developers

Support/Help

Please visit our Telegram or Discord communities listed above for any Charge related support. **Note that our team will never DM (direct message) you first or call you.** You *must* initiate contact for your own security. You can verify they are official team members by checking the right member bar on Discord (they will be under Admins, Team or Mods) and on Telegram they will have a title in small font to the right of their names. There is a #support specific channel in our Discord server.

Never disclose your seed phrase to anyone. Team members and support staff can assist with technical support but do not provide any financial advice or strategy.

Notes

¹ At the time of publication there is no name released for the Charge Wallet

DISCLAIMER - READ BEFORE INVESTING

PLEASE READ THE ENTIRETY OF THIS "DISCLAIMER" SECTION CAREFULLY. NOTHING HEREIN CONSTITUTES LEGAL, FINANCIAL, BUSINESS OR TAX ADVICE AND YOU SHOULD CONSULT YOUR OWN LEGAL, FINANCIAL, TAX OR OTHER PROFESSIONAL ADVISOR(S) BEFORE ENGAGING IN ANY ACTIVITY IN CONNECTION HEREWITH. THE \$CHARGE AND \$STATIC TOKENS ARE NOT LEGAL LENDER IN ANY STATE AND ARE NOT BACKED BY ANY GOVERNMENT. TOKEN HOLDERS MAY FACE IMPERMANENT LOSS WHEN PROVIDING LIQUIDITY TO A LIQUIDITY POOL WHERE THE PRICE OF THE DEPOSITED ASSETS MAY CHANGE COMPARED TO THE PRICE WHEN DEPOSITED. IMPERMANENT LOSS MAY BECOME PERMANENT IF THE TOKEN HOLDER DECIDES TO WITHDRAW LIQUIDITY. TOKEN HOLDERS SHOULD PERFORM DUE DILIGENCE AND USE CAUTION AT ALL TIMES. NEITHER CHARGE DEFI (THE COMPANY), ANY OF THE PROJECT TEAM MEMBERS (CHARGE DEFI TEAM) WHO HAVE WORKED ON THE CHARGE DEFI (AS DEFINED HEREIN) PLATFORM TO DEVELOP THE CHARGE DEFI PROTOCOL IN ANY WAY WHATSOEVER, ANY DISTRIBUTOR/VENDOR OF \$CHARGE AND \$STATIC TOKENS, INCLUDING WITHOUT LIMITATION CHARGE DEFI (THE DISTRIBUTOR), NOR ANY SERVICE PROVIDER SHALL BE LIABLE FOR ANY KIND OF DIRECT OR INDIRECT DAMAGE OR LOSS WHATSOEVER WHICH YOU MAY SUFFER IN CONNECTION WITH ACCESSING THIS WHITEPAPER, THE WEBSITE ([HTTPS://WWW.CHARGEVENTURES.CO](https://www.chargeventures.co)) OR ANY OTHER WEBSITES OR MATERIALS PUBLISHED BY THE COMPANY OR CHARGE DEFI TEAM.

PROJECT PURPOSE

The Company, the Distributor and their respective affiliates would develop, manage and operate the Charge DeFi protocol. The Company is acting solely as an arms' length third party in relation to the \$Charge and \$Static tokens sale and not in the capacity as a financial adviser or fiduciary of any person with regard to the sale of \$Charge and \$Static tokens.

NATURE OF THE WHITEPAPER

The Whitepaper and the Website are intended for general informational purposes only and do not constitute a prospectus, an offer document, an offer of securities, a solicitation for investment, or any offer to sell any product, item or asset (whether digital or otherwise). The information herein may not be exhaustive and does not imply any elements of a contractual relationship. There is no assurance as to the accuracy or completeness of such information and no representation, warranty, or undertaking is or purported to be provided as to the accuracy or completeness of such information. Where the Whitepaper or the Website includes information that has been obtained from third party sources, the Company, the Distributor, their respective affiliates and/or the Charge DeFi team have not independently verified the accuracy or completion of such information. Further, you acknowledge that circumstances may change and that the Whitepaper or the Website may become outdated as a result; and neither the Company nor the Distributor is under any obligation to update or correct this document in connection therewith.

TOKEN DOCUMENTATION

Nothing in the Whitepaper or the Website constitutes any offer by the Company, the Distributor or the Charge DeFi team to sell any \$Charge and \$Static tokens (as defined herein) nor shall it or any part of it nor the fact of its presentation form the basis of, or be relied upon in connection with, any contract or investment decision. Nothing contained in the Whitepaper or the Website is or may be relied upon as a promise, representation or undertaking as to the future performance of the Charge DeFi protocol. The agreement between the Distributor (or any third party) and you, in relation to any sale, purchase, or other distribution or transfer of \$Charge and \$Static tokens, is to be governed only by the separate terms and conditions of such agreement.

The information set out in the Whitepaper and the Website is for community discussion only and is not legally binding. No person is bound to enter into any contract or binding legal commitment in relation to the acquisition of \$Charge and \$Static tokens and no virtual currency or other forms of payment is to be accepted on the basis of the Whitepaper or the Website. The agreement for sale and purchase of \$Charge and \$Static tokens and/or continued holding of \$Charge and \$Static tokens shall be governed by a separate set of Terms and Conditions or Token Purchase Agreement (as the case may be) setting out the terms of such purchase and/or continued holding of \$Charge and \$Static tokens (the Terms and Conditions), which shall be separately provided to you or made available on the Website. The Terms and Conditions Documentation must be read together with the Whitepaper. In the event of any inconsistencies between the Terms and Conditions and the Whitepaper or the Website, the Terms and Conditions shall prevail.

INFORMATIONAL PURPOSES ONLY

The information set out herein is only conceptual and describes the future development goals for the Charge DeFi protocol to be developed. In particular, the project roadmap in the Whitepaper is being shared in order to outline some of the plans of the Charge DeFi team, and is provided solely for INFORMATIONAL PURPOSES and does not constitute any binding commitment. Please do not rely on this information in making purchasing decisions because ultimately, the development, release, and timing of any products, features or functionality remains at the sole discretion of the Company, the Distributor or their respective affiliates and is subject to change. Further, the Whitepaper or the Website may be amended or replaced from time to time. There are no obligations to update the Whitepaper or the Website, or to provide recipients with access to any information beyond what is provided herein.

(cont.)

DEEMED REPRESENTATIONS AND WARRANTIES

By accessing the Whitepaper or the Website (or any part thereof), you shall be deemed to represent and warrant to the Company, the Distributor, their respective affiliates, and the Charge DeFi team as follows:

- In any decision to purchase any \$Charge and \$Static tokens, you shall not rely on any statement set out in the Whitepaper or the Website;
- You will and shall, at your own expense, ensure compliance with all laws, regulatory requirements, and restrictions applicable (as the case may be);
- You acknowledge, understand and agree that \$Charge and \$Static tokens may have no value, there is no guarantee or representation of value or liquidity for \$Charge and \$Static tokens, and \$Charge and \$Static tokens is not an investment product including for any speculative investment;
- None of the Company, the Distributor, their respective affiliates, and/or the Charge DeFi team members shall be responsible for, or liable for, the value of \$Charge and \$Static tokens, the transferability and/or liquidity of \$Charge and \$Static tokens, and/or the availability of any market for \$Charge and \$Static tokens through third parties or otherwise; and
- You acknowledge, understand and agree that you are not eligible to purchase any \$Charge and \$Static tokens if you are a citizen, national, resident (tax or otherwise), domiciliary and/or green card holder of a geographic area or country (i) where it is likely that the sale of \$Charge and \$Static tokens would be construed as the sale of a security (howsoever named), financial service or investment product and/or (ii) where participation in token sales is prohibited by applicable law, decree, regulation, treaty, or administrative act (including without limitation the United States of America, Canada, United Kingdom, New Zealand, the People's Republic of China (but not including the special administrative regions of Hong Kong and Macau, and the territory of Taiwan), Thailand, North Korea, Iran, and the Socialist Republic of Vietnam); and to this effect, you agree to provide all such identity verification document when requested in order for the relevant checks to be carried out.

The Company, the Distributor and the Charge DeFi team do not and do not purport to make, and hereby disclaims, all representations, warranties or undertaking to any entity or person (including without limitation warranties as to the accuracy, completeness, timeliness or reliability of the contents of the Whitepaper or the Website, or any other materials published by the Company or the Distributor). To the maximum extent permitted by law, the Company, the Distributor, their respective affiliates and service providers shall not be liable for any indirect, special, incidental, consequential or other losses of any kind, in tort, contract or otherwise (including, without limitation, any liability arising from default or negligence on the part of any of them, or any loss of revenue, income or profits, and loss of use or data) arising from the use of the Whitepaper or the Website, or any other materials published, or its contents (including without limitation any errors or omissions) or otherwise arising in connection with the same. Prospective purchasers of \$Charge and \$Static tokens should carefully consider and evaluate all risks and uncertainties (including financial and legal risks and uncertainties) associated with the \$Charge and \$Static tokens token sale, the Company, the Distributor and the Charge DeFi team.

REGULATORY APPROVAL

No regulatory authority has examined or approved any of the information set out in the Whitepaper or the Website, whether formally or informally. No such action or assurance has been or will be taken under any jurisdiction's laws, regulatory requirements, or rules. The publication, distribution or dissemination of the Whitepaper or the Website does not imply that the applicable laws, regulatory requirements or rules have been complied with.

CAUTIONARY NOTE ON FORWARD-LOOKING STATEMENTS

All statements contained herein, statements made in press releases or in any place accessible by the public and oral statements that may be made by the Company, the Distributor and/or the Charge DeFi team may constitute forward-looking statements (including statements regarding the intent, belief or current expectations with respect to market conditions, business strategy and plans, financial condition, specific provisions and risk management practices). You are cautioned not to place undue reliance on these forward-looking statements given that these statements involve known and unknown risks, uncertainties and other factors that may cause the actual future results to be materially different from that described by such forward-looking statements, and no independent third party has reviewed the reasonableness of any such statements or assumptions. These forward-looking statements are applicable only as of the date indicated in the Whitepaper, and the Company, the Distributor, and the Charge DeFi team expressly disclaim any responsibility (whether express or implied) to release any revisions to these forward-looking statements to reflect events after such date.

REFERENCES TO COMPANIES AND PLATFORMS

The use of any company and/or platform names or trademarks herein (save for those which relate to the Company, the Distributor or their respective affiliates) does not imply any affiliation with, or endorsement by, any third party. References in the Whitepaper or Website to specific companies and platforms are for illustrative purposes only.

ENGLISH LANGUAGE

The Whitepaper and the Website may be translated into a language other than English for reference purposes only. The English language versions shall prevail in the event of conflict or ambiguity between the English language version and translated versions of the Whitepaper or the Website. You acknowledge that you have read and understood the English language version of the Whitepaper and the Website.

NO DISTRIBUTION

No part of the Whitepaper or the Website is to be copied, reproduced, distributed or disseminated in any way without the prior written consent of the Company or the Distributor. By attending any presentation on this Whitepaper or by accepting any hard or soft copy of the Whitepaper, you agree to be bound by the foregoing limitations.

LOCATION + GEOFENCING

Portions of the Charge DeFi site are NOT offered to persons or entities who reside in, are citizens of, are incorporated in, or have a registered office in the United States of America or any Prohibited Locations, as defined below (any such person or entity, a "Restricted Person"). We do not make exceptions. If you are a restricted person, then do not attempt to access or use geofenced portions the DeFi site(s). Use of a virtual private network (e.g., a VPN) or other means by Restricted Persons to access is prohibited.

You are solely responsible for adhering to all laws and regulations applicable to you and your use or access to the geofenced areas. Your use of the geofenced areas of the protocol is prohibited by and otherwise violate or facilitate the violation of any applicable laws or regulations, or contribute to or facilitate any illegal activity.

By using or accessing the geofenced areas, you represent to us that you are not subject to sanctions or otherwise designated on any list of prohibited or restricted parties or excluded or denied persons, including but not limited to the lists maintained by the United Nations Security Council, the European Union or its Member States, or any other relevant government authority.

We make no representations or warranties that the information, products, or services provided through our protocol, are appropriate for access or use in other jurisdictions. You are not permitted to access or use our Interface in any jurisdiction or country if it would be contrary to the law or regulation of that jurisdiction or if it would subject us to the laws of, or any registration requirement with, such jurisdiction. We reserve the right to limit the availability of our protocol to any person, geographic area, or jurisdiction, at any time and at our sole and absolute discretion.

You must not use any software or networking techniques, including use of a Virtual Private Network (VPN) to modify your internet protocol address or otherwise circumvent or attempt to circumvent this prohibition.
